### Stained Glass (18 years and older)

All skill levels are welcome in RCC's popular Stained Glass course. Beginning students will work through all the steps necessary to finish a stained glass project. Students with stained glass or mosaic experience may choose a more advanced project suitable to their skill levels subject to instructor approval. All necessary tools will be available for student use at no charge; however a \$35 supply fee, which covers all materials necessary to complete the project, will be due to the instructor at the first class. (Fees for experienced students working on larger projects will be determined on a case-by-case basis.) For the first class, bring a pair of old cotton gloves (to dig through trays of glass), a container at least 12 inches in length and width and several inches deep to transport your project, and paper to take notes. Wear long pants and enclosed shoes. Safety glasses or goggles are also recommended. The shop has “industrial-strength” goggles you can use, but you may wish to bring your own for greater comfort.
